

## Kudos to “cube” satellite

March 6, 2016

### [Los Alamos ‘Cube Sat’ Team Wins Secretary's Award](#)

More than 60 Los Alamos National Laboratory staff instrumental in the success of the Prometheus project were honored Monday with the Secretary of Energy Achievement Award at a special ceremony in Los Alamos.

Prometheus is the name of the cube satellite (“cube sat”) constellation developed by Los Alamos for U.S. Special Operations Command (USSOCOM). LANL Director Charlie McMillan and Principal Associate Director Terry Wallace for Global Security, presented the awards, which recognize team members for their “deep technical expertise” and “tight collaboration ... to accomplish challenging performance goals under an aggressive launch timeline.”

The technology developed by the Prometheus team has helped shape the future direction of agile space systems for the U.S. military and the Department of Energy.
